

DLMI 2026 Hand's on Setup instructions

1. Create an account

Go to: <https://jupyter.dmlti.calculquebec.cloud/hub/login?next=%2Fhub%2F>

The image shows the JupyterHub login interface. At the top left is the JupyterHub logo. In the center, there is a white box with an orange header labeled "Sign in". Below the header are two input fields: "Username:" and "Password:". Below these fields is an orange "Sign in" button. At the bottom of the white box, there are two links: "Create Account" and "Reset Password", separated by a vertical line. The background is dark gray. At the bottom left, it says "Powered by Magic Castle".

2. Login

- Go to: <https://jupyter.dmlti.calculquebec.cloud/hub/login?next=%2Fhub%2F>
- Enter your username and password

The image shows the JupyterHub login page. At the top left is the JupyterHub logo. In the center, there is a 'Sign in' form with an orange header. The form contains two input fields: 'Username:' and 'Password:'. Below these fields is an orange 'Sign in' button. Under the button are two links: 'Create Account' and 'Reset Password'. At the bottom left, it says 'Powered by Magic Castle'.

3. Create compute node

Once logged-in

1. Set memory to 4096
2. Set GPU to 1x1G.5GB
3. Other settings should not be changed (verify with this screenshot)

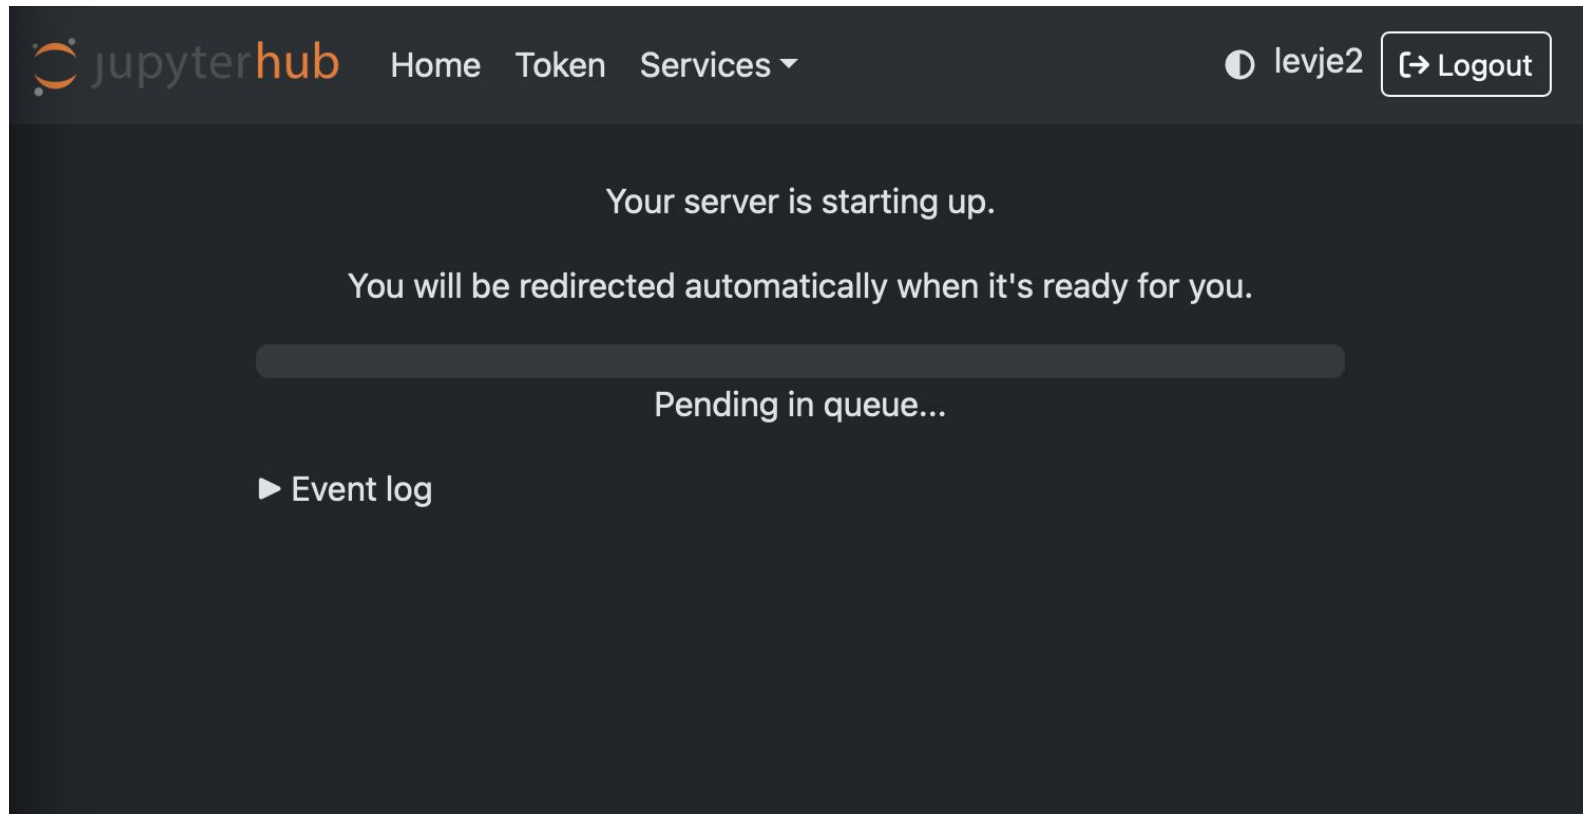

Server Options

Reservation	Partition
None	
Account	Time (hours)
def-sponsor00	4.0
Number of cores	Memory (MB)
1	4096
☒ Enable core oversubscription? Recommended for interactive usage	
GPU configuration	
1 x 1G.5GB	
User interface	
JupyterLab	

Start

3. Create compute node

- Wait for your compute to load. This may take 4-5 minutes

The image shows a screenshot of the JupyterHub web interface. At the top, the JupyterHub logo is on the left, and navigation links for 'Home', 'Token', and 'Services' are in the center. On the right, the user 'levje2' is logged in, with a 'Logout' button next to it. The main content area has a dark background and displays the message 'Your server is starting up.' followed by 'You will be redirected automatically when it's ready for you.' Below this text is a horizontal progress bar that is mostly filled with a dark gray color. Under the progress bar, the text 'Pending in queue...' is visible. At the bottom left, there is a link labeled '▶ Event log'.

jupyterhub Home Token Services ▾ levje2 [→ Logout]

Your server is starting up.

You will be redirected automatically when it's ready for you.

Pending in queue...

▶ Event log

4. Jupyter Lab

You should now see the JupyterLab interface.

This interface allows use to use different tools such as Jupyter Notebooks and the terminal

You are ready to start working!
